

Signatures and Authentication for Everyone

May 22, 2007

Mr. Ken Peterson
President & CEO
Churchill & Harriman
239 Wall Street
Princeton, NJ 08540

Dear Ken:

I am writing to you to thank you for Churchill & Harriman's notable contributions to both the SAFE Bio-Pharma Association and its member companies. C&H's validated business process development expertise, coupled with your institutional identity and authentication management competencies, has all been successfully employed for the good of the entire SAFE community.

It is also important to note that C&H continues to be committed to SAFE's success and has been so since the earliest days of the Association's existence. Our President & CEO and I are grateful to you for your proactive and tireless efforts to raise awareness with industry thought leaders, and within the business community, all meant to further the adoption of the SAFE system. C&H's courtesy, kindness and selfless perseverance in this regard is deeply appreciated, paying particular note to the discharge of your SAFE Leadership Team duties.

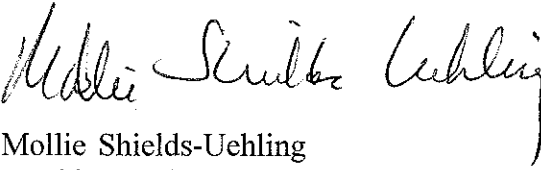

Churchill & Harriman's role in helping the SAFE system become operational has proved to be instrumental to our success. Accordingly, C&H was selected to perform services for SAFE and its Founding Members, based squarely on your firm's institutional identity and authentication management competencies, and the correlating results C&H has produced in the global life science business community.

All in the SAFE community have benefited from the significant results C&H has produced in this critical regard. From your work to implement SAFE at Member companies, to establishing Member Implementation Guides, to your contribution to our current and future credentialing process, to planning out and owning responsibility for the first SAFE Credentialing Help Desk, all of these results have proved instrumental to our success.

Churchill & Harriman has exceeded my very high expectations in propelling this challenging initiative forward. Please accept my gratitude on behalf of the SAFE Bio-Pharma Association.

Sincerely yours,

Gary Seerest
Chairman
SAFE Bio-Pharma Association

Mollie Shields-Uehling
President and CEO
SAFE Bio-Pharma Association
